

Internal 76mm Pole Reducer to 60mm

Internal Pole Reducer allows a 60mm Luminaire/mastfitter fit on top of a 76mm diameter Pole.

Construction: Galvanised Steel with a ledge 76mm diameter which sits on top of pole.

Installation: Insert Reducer into top of pole. Secure Reducer with grub screws - drill and tap Pole if necessary. Insert light fitting on top of Reducer.

Finish: Galvanised Steel (as Reducer is mainly hidden from view).

Dimensions:
Height above ledge: 100mm
Height below ledge: 260mm
